

## Mask with ties

Cut 2 rectangles of cotton 7x9 inches (5x7 for child size)

Gather three horizontal pleats so finished rectangle is 7" long and 4" wide

Stitch around all four sides (zigzag or serge)

Ties: cut 2 fabric strips 36" long by 1" wide

Fold strips in half the long way

Pin each strip along the side edge of mask, with 18" of tie at top and bottom of each side

Start sewing (zigzag or straight stitch) from tip of tie towards mask, onto the mask, and keep sewing the length of the tie. Repeat on other side.
