

How to view your past medical records via HISTORICAL portal

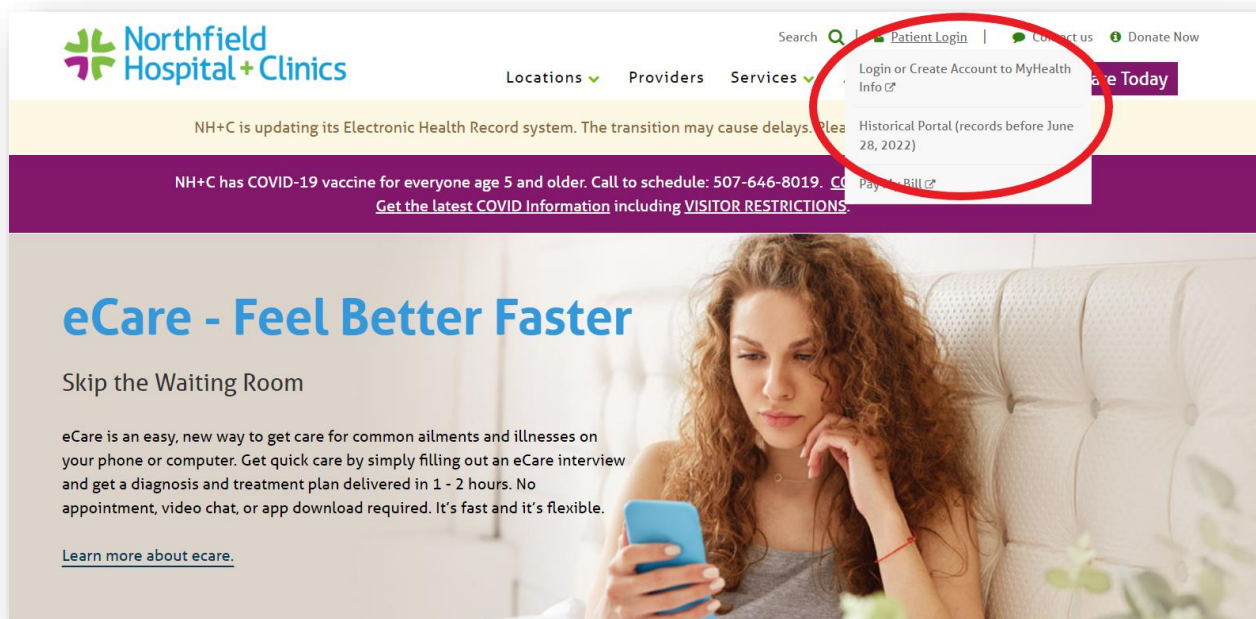

Your provider and care team can access all your medical records while caring for you.

You can access your medical records from before June 28, 2022 through the HISTORICAL portal.

1. Go to the **HISTORICAL** portal on northfieldhospital.org.

Click on Patient Login at the top of the screen. Then select Historical Portal from the drop-down list.

You can do this on your computer, tablet or phone. (Go to the website; don't use the phone app.)

The screenshot shows the Northfield Hospital + Clinics website. The navigation bar includes the logo, a search bar, and links for Patient Login, Contact us, and Donate Now. A dropdown menu is open under Patient Login, showing options for Login or Create Account to MyHealth Info, Historical Portal (records before June 28, 2022), and a link to Pay a Bill. The Historical Portal option is circled in red. Below the navigation bar, there is a purple banner with COVID-19 vaccine information and a link for visitor restrictions. The main content area features a large image of a woman using a smartphone, with the heading "eCare - Feel Better Faster" and the subheading "Skip the Waiting Room". The text describes eCare as a convenient way to get care for common ailments and illnesses, with a diagnosis and treatment plan delivered in 1-2 hours. A link to "Learn more about ecare." is provided at the bottom.

- 2. Log in.** You will need your old log-in and password. (It may be the same one you're using for new MyHealth Info.) If you forgot your log-in or password, there is a link to recover it.
