

## Medication Disposal

Help prevent medication misuse/abuse and promote environmentally friendly medication disposal practices by taking your leftover medicine to a drop box. Over-the-counter medications and prescription drugs can pollute waters and be harmful to humans, fish, and other wildlife when disposed of improperly — **do not flush medications down the toilet or place in the trash.**

These drop boxes are FREE and offer a place to safely and anonymously dispose of medications 24 hours a day/7 days a week.

**What:** Any over-the-counter, prescription medications and pet medications in any form (pill, liquid, cream, spray, powder).

**When:** 7 days a week, 24 hours a day.

### How:

- Keep medicine in the original container.
- Remove or cross out your name and any personal information on the container.
- Place loose pills and liquids into a clear plastic bag, seal tightly and write the name of the medicine on the bag.
- Needles, sharps, syringes, lancets and thermometers are not accepted.

### DISPOSAL BOX LOCATIONS:
