

Name: _____ Date of Birth: _____

If you have questions about the cost of therapy:

Your out of pocket expenses for therapy are determined by your individual insurance policy. Call your insurance company to tell them therapy is billed as a hospital outpatient service (not a clinic / professional) and to ask:

- Whether Northfield Hospital is in network
- Whether therapy is a covered service under your policy
- What your deductible amount is
- What your copay amount is
- What your coinsurance amount will be
- What your yearly maximum out of pocket amount is

Northfield Hospital & Clinics will submit charges for the services you receive to your insurance company who will determine how much of the bill you will pay and how much they will pay.

You will receive a bill from Northfield Hospital & Clinics for the amount you owe.

I have read and understand the above statements.
