

## Introduction to EKGs

August 2022

**Introduction to EKGs:** This 16-hour course will introduce the student to electrocardiogram interpretation, including, electrode placement, related anatomy physiology, parts of electrocardiograms, axis and axis deviation, arrhythmias, conduction blocks, and introduction for 12-lead EKG interpretation. Actual implementation of these skills is dependent on the individual's scope of practice. For more information about the Introduction to EKGs Course, visit our website: <https://www.northfieldhospital.org/emergency-medical-education-specialty-courses>
